Houston, TX
Mobile: +1 832 349 0460

Summary of Experience and Qualifications

Taylor Turcott is a Business Technology Analyst in the SAP Package Technologies service line. She recently graduated from Texas A&M with a degree in Supply Chain Management and a minor in Spanish. Since joining Deloitte in July 2017, Taylor has gained experience in SAP EWM through a configuration and testing role on a food and beverage client, as well as completion of the SAP EWM Certified to Serve program.

Deloitte Experience

Industry: Consumer & Industrial Products Service Area: Technology

Service Line: SAP Package Technologies

EWM Functional Analyst; 6 months.

Client is the world's second largest processor and marketer of chicken, beef, and pork. Together with its subsidiaries, it operates several major food brands and supplies its products to a wide range of restaurants, schools, and other establishments.

Project Description: S/4HANA 1709 Implementation with Extended Warehouse Management 9.5

Role: Taylor worked as an EWM Functional Analyst on the Warehousing & Transportation team. Her role consisted of configuration in both S/4HANA and EWM environments, as well as serving as the Deloitte lead for the Inbound Processes scrum team. Taylor was responsible for configuring thousands of enterprise structure objects in S/4 as well as a range of EWM objects and settings. In her role on the Inbound Processes team, she led live demos and guided client counterparts through testing of inbound scenarios in EWM for two sprint cycles.

Technical Environment: SAP S/4HANA 1709, SAP EWM 9.5, Excel, JIRA

Industry: Energy and Resources Service Area: Technology

Service Line: SAP Package Technologies

MM Functional Analyst; 2 months.

Client is the largest distributor of pipe, valve, and fitting products and services to the energy and industrial markets, serving the oil and gas industry across the upstream, midstream, and downstream sectors as well as chemical and gas distribution markets worldwide.

Project Description: Global SAP Implementation

Role: Taylor worked as a Business Technology Analyst on the Requisition to Pay team during preparation for the blueprint phase of the implementation. She prepared key deliverables for blueprint workshops, created a customized survey to improve end-user experience, completed the SharePoint Administrator certification, and performed wholesale innovation research. She also assisted the R2P team in preparing proposal deliverables related to Integrated Business Planning (IBP), Global Available to Promise (GATP), and Vistex.

Technical Environment: SAP, PowerPoint, Excel, Visio, SharePoint

System Experience
